Commercial marine

Brands

Quality Cost Effective marine parts and equipment to cover market needs in the Gulf and Indian Ocean region.

All kinds of industry, street and port equipment. Since 1961, DEGAIE works steel, stainless and develops new products in aluminum for port equipment purposes.

120 years of experience and inventor of the inflatable boat, Zodiac Nautic offers products with exceptional resistance and reliability thanks to the materials and processes that are always at the cutting edge of technology.

AKA marine, a company which has long been recognized as the international leader of inflatables and RIBS by offering unmatched quality products, which have a proven track, record for dependability and reliability.

The Guimbal Cabri G2 is a two-seat light helicopter produced by Hélicoptères Guimbal, an independent private company founded in 2000.

Having already sold more than 120,000 units throughout the world, CRISTEC has developed a complete range of battery chargers.

SIMRAD

Offering a sophisticated range of auto steering, navigation and safety products for commercial marine vessels.

Hydraulic steering systems are perfectly adapted to outboard and inboard motor boats and pleasure, sporting, fishing and commercial applications and to monohull and multihull sailing-boats.

Brands

Created over 25 years ago, today, PRESTIGE is an international brand that is represented on four continents by a highly specialized dealer network, trained by the JEANNEAU shipyard.

PRESTIGE® yachts are the jewel of French marine engineering: multiple generations, a rich variety of expertise, the same desire to build quality and to create beauty.

120 years of experience and inventor of the inflatable boat, Zodiac Nautic offers products with exceptional resistance and reliability thanks to the materials and processes that are always at the cutting edge of technology.

The Guimbal Cabri G2 is a two-seat light helicopter produced by Hélicoptères Guimbal, an independent private company founded in 2000.

Hydraulic steering systems are perfectly adapted to outboard and inboard motor boats and pleasure, sporting, fishing and commercial applications and to monohull and multihull sailing-boats.

B&G has been at the cutting edge of sailing innovation for 50 years. Whether you're motivated by the thrill of your next race or a passion for cruising, B&G electronics are designed for you.

Lowrance has been a leader in marine electronics since it invented the first consumer sonar device in 1957.

A Bombard™ boat is first of all a boat made for the sea – functional, safe, strong and reliable: there is no kidding with the sea.

The only inflatable textile fender in the yachting market. The Fendertex textile berthing defense was conceived, designed and realized to optimize the pleasure of navigation.

If you are looking for the ultimate driving pleasure, simply head for the water. No boundaries, no limits. Experience vast open spaces and pure freedom with the SEABOB-Jet.

LEISURE

Equip to make enjoy

Motor boats, RIBs, sail boats, underwater scooters, marina pontoons, electronic navigation, AIS, battery chargers, steering systems, ROV-UAV (drones), buoys, fish finders, ...

PowerVision

An innovation leader, PowerVision Robot has been released series of intelligent robot products including drones and multi-purpose consumer robots. By its cutting edge technologies.

We have perfected our craft of creating inflatable and rigid-inflatable tenders for over 5 decades in Europe, making any Avon product the smart choice for your boat.

C-MAP serves boaters worldwide, providing cartography products and services for all types of leisure boaters, from fishermen and sailing enthusiasts to powerboat owners.
